

# A campus divided TARGETjobs

Summary of key results from a survey of the TARGETjobs student database, which sought to determine UK students' intended EU referendum voting decision and their subsequent opinions post-result.

## Remain 82.7%

## Leave 17.3%

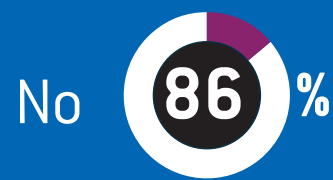

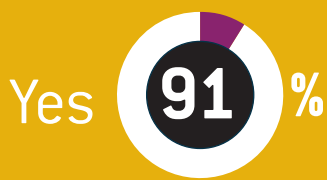

### TOP reasons

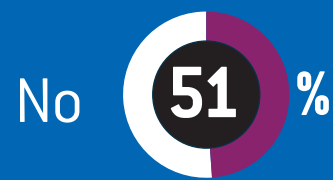

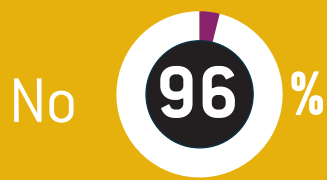

- ✓ We are stronger as part of the EU
- ✓ Maintain strong trade with the rest of the EU
- ✓ Negative effect on future career

- ✓ Better control of immigration
- ✓ Don't want to be imposed with EU Laws
- ✓ Stronger sovereignty

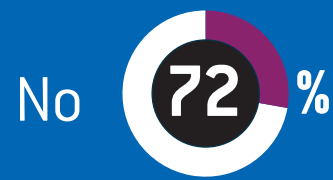

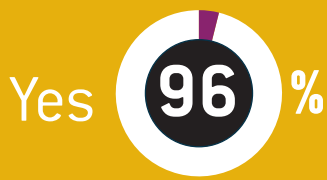

Do you believe securing work after university will now be more difficult as a result of Brexit?

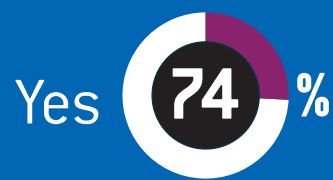

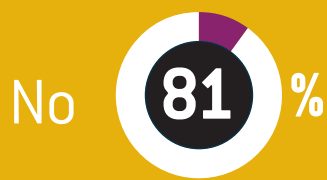

Do you believe Brexit campaigners have sufficiently investigated the impact on students and young people's education?

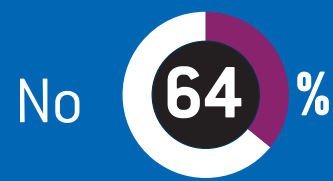

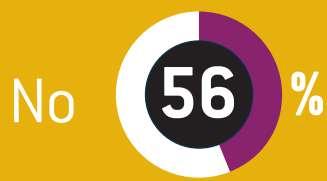

Do you expect a reduction of international study and career opportunities as a result of Brexit?

Do you believe UK universities will still operate alongside the EU to the same extent?

Do you believe that your university provided the student body with sufficient information on the consequences of the EU referendum?

Are you worried about the effect the Brexit will have on research funding in the UK?
